Software Development Internship in Sweden

International Swedish IT company with installations in over 20 countries inviting to two internships in 2019/2020.

We have recently signed some new larger clients internationally and we are looking to expand our team with top young talent in coding and software development.

We offer custom CRM software to retailers in European and US markets. Join a fun, innovative, hardworking, passionate team that brings the latest technology to retailers. Most of our colleagues are international so English is our office language.

Join a fun, innovative, hardworking, passionate team that brings the latest technology to retailers. Our sales team, focus on Europe and US markets. Most of our colleagues are international so English is our office language.

We are looking for an intern that can help us to test our applications and that can start helping us develop new ones. We mainly use C++, JavaScript, PHP, HTML and MySQL. You will be involved in developing and testing the latest gadgets and features for our clients.

Background and technologies:

- JavaScript
- .NET
- Swift

We invite to our benchmarking activities on a regular basis and then also have the opportunity to answer more questions. The internship will take place at our office in Uppsala, Sweden. A normal working day is 8 hours long, from 9:30 am to 6:30 pm. If you are not able to join us for the full six month internship period, please add a note of this in your application.

What we offer:

- Hands-on work experience
- Young, dynamic and international-minded working atmosphere
- Professional reference to help you with your future career

If you are interested in joining us, please send a few sentences about yourself, your thesis project and your CV to: hr@id24.com
